CTF Fall Training Synopsis

Tuesday, October 9, 2007
Local Council Focus

Day One - Session One
A Primer in Evidence-Based Practice

This session will focus on the fundamentals of evidence-based practice and how it applies to the CBCAP guidelines issued last fall. This session will explain the ranking continuum and will define evidence-based and evidence-informed practice models.

Day One - Session Two
Evidence-Based Practice: Next Steps

This session takes the basics learned in session one and begins to outline the stages of implementation for evidence-based and evidence-informed practice. The training will focus on resources for exploring models available and how to determine the best fit for your programming needs.

Wednesday, October 10, 2007
Direct Service Focus

Day Two - Session One
Evidence-Based Practice and Logic Models: How They Fit Together

This session explains the fundamentals of logic model composition and its important tie-in to implementation of evidence-based and evidence-informed practice. We will explore the basic terms of logic models and how using one effectively can improve your service delivery.

Day Two - Session Two
Writing Effective Outcomes and Indicators

This session will explore the nuances of writing outcome and indicator statements for logic models. We will highlight the differences, talk about setting benchmarks and then practice the skills learned.

Day Two - Session Three
Data Management: Closing the Loop and Finding Resources

This session will help programs understand the importance of data and its reporting to the evaluation process. As a bonus, this session will explore a resource in logic model composition that programs can use.

CTF Fall Training Registration
